- alarm clock
- phone cards for calling home
- Twin XL mattress pad
- snacks
- beach towel
- in-line skates

OPTIONAL ITEMS TO BRING: These are items previous students have found helpful/useful during their time at Governor's School. Many students have attended NDGS without these items and still had a wonderful experience:

- **Graphing calculators**
 - Math and science students may find the use of their own graphing calculators to be more enjoyable, but students without their own graphing calculators can borrow one during Governor's School.
- **Computer**
 - Students are reminded that computers brought to Governor's School are to be used for academic purposes only. Students found in violation of this policy risk loss of computer privileges.
- **Microwave and/or dorm-size refrigerator**
 - Students may also wish to bring a dorm size refrigerator and/or microwave for snacks and beverages. However, a refrigerator is by no means required for an excellent summer experience.
- **Fan**

- Thompson and Sevrinson Halls are not air conditioned. Because of this, students may find that a fan is a comfortable addition to their time at Governor's School.
