October 25, 2021.

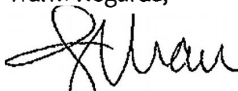

To whom it may concern,

I am writing you to show my support for NDSU horticulture. NDSU horticulture is particularly important to me as a certified master gardener volunteer and diagnostician. I have a career in horticulture doing what I love, being a Local Foods Coordinator for Nueta Hidatsa Sahnish College because of this educational extension program offered by NDSU. If it weren't for NDSU Extension and horticulture, I would have never found my passion!

Instructors of this program include many different individuals from NDSU that utilize NDSU greenhouses for research and Extension services. I have heard that this horticulture greenhouse is slated to be demolished. I am requesting SBARE to support adding greenhouses to the replacement plans of Waldron Hall to allow for horticulture research and Extension to continue. I support the legislative funding operating funds for horticulture through the initiative called Food Security and Outdoor Space.

Please take this request into consideration when making decisions.

Warm Regards,

Jessica Uran
