**Subject:** SBARE Recommendation

**Hello**

**I have had the pleasure of sitting in with Jodi Bruns on several occasions over the past two years. Twice now in the Wishek City Collaborative planning meetings and also the team building day with the ND Beef Commission.**

**What we have accomplished in the City of Wishek in the past two years after our planning meetings has been nothing short of spectacular! The funding we have received and teamwork from our citizens is all thanks to the organized plans created at those meetings.**

**The team building day was also an excellent team building event, which I learned so much about myself and how I can contribute to the various boards and civic organizations I belong to.**

**I do hope that more people will utilize the SBARE for their teams. It is a valuable resource for any organization, large or small!**
