Boxes highlighted in red are required fields. Make sure your ID number is correct so it may be added to your student file for processing.

Include all of the courses to be used towards your total of 30 minimum required credits (some programs require more credits). The credits will total at the bottom of the page automatically.

For more information regarding master's degree requirements, consult the <u>Graduate Bulletin</u>.

for review and approval by the Institutional Review Board (IRB), the Institutional Animal Care and Use Committee (IACUC), and/or the
Institutional Biosafety Committee (IBC). The student should initiate this process after his or her supervisory committee has approved
the final research design because IRB. IACUC, and IBC approval must be obtained before the research project commences."

Master's Supervisory Committees for students completing a thesis or master's paper require a minimum of three members, including one from outside of your program.

Students in non-thesis programs, require an adviser. Put N/A in the additional committee member fields.

If one of your committee members is not full or affiliate graduate faculty, attach the information described on the form using the paperclip icon at the bottom of the page.

If you are unsure as to who your Graduate Program Coordinator is, consult your adviser.
