

Dear Parents,

On September 20, 2014, your daughter will participate in the Sonia Kovalevsky High School Day, organized at NDSU. The Sonia Kovalevsky High School Day provides an opportunity to girls from Minnesota and North Dakota to visit the NDSU campus, meet faculty and professional women who use math in their careers, and other high school students who are interested in mathematics. At NDSU, we wish to continue organizing and advertising this highly valued program in order to inspire girls to continue their study of mathematics.

During the day, personnel from NDSU will take photographs of the workshops and activities. We would like to use these photographs on advertising materials for future events, and post them in the Mathematics Department Website. Identifying information will NEVER be used to caption these photographs.

Please read the enclosed photo waiver form and have your child return it to her teacher as soon as possible. If you have questions about the project, please contact Maria Alfonseca-Cubero at maria.alfonseca@ndsu.edu or by phone at (701) 231-8171. Thank you for your support of mathematics enrichment through the Sonia Kovalevsky High School Day.

Sincerely,

Maria Alfonseca-Cubero
Assistant Professor
Department of Mathematics
North Dakota State University
