

# Using Mathematics to Understand Our World

## Reflection Assignment

**Goal:** To reflect on what you have learned during the course.

**Task:** Submit a one-page *Reflection* on what you have learned during the class. What have you learned? Were there some things that you found particularly interesting? surprising? meaningful? Has your perception of mathematics changed any? If so, in what ways? Has what you learned had any effect on your teaching? If so, how? Anything else you would like to say about your experience in the course?

**Reflection Due Date:** Monday, May 25, 2009
